Pune, India

PROFESSIONAL SUMMARY

Full-Stack Developer with 3+ years of production experience building scalable SaaS platforms and payment infrastructure for enterprise clients across Europe and North America. Stripe Certified Professional Developer (Apr 2025) with deep expertise in subscription billing, webhook systems, and third-party API integrations. Proficient across the full stack - JavaScript, PHP, Node.js, Laravel, Vue.js, React.js, Python and MySQL - with a strong record of measurable performance improvements and automated workflow delivery.

WORK EXPERIENCE

Ciklum India

Jun 2023 – Present

JavaScript Engineer-1

Jul 2024 – Present | Pune, India (Remote)

- Architected and implemented scalable backend systems using Laravel and MySQL, reducing API response time by 40% — directly improving platform reliability for enterprise SaaS clients across Europe and North America
- Developed and integrated AWS cloud services (S3, EC2, Lambda) into the product stack, enhancing system uptime, horizontal scalability, and deployment efficiency
- Built comprehensive user interaction tracking system (clicks, visits, file downloads) using event-driven architecture, improving analytics coverage by 70% and enabling data-driven product decisions
- Collaborated in agile cross-functional team of 30+ engineers across multiple time zones, consistently delivering bi-weekly sprint releases
- Completed Ciklum AI Academy Level 3 certification (Jan 2026) and integrated AI-assisted development practices into daily engineering workflow

Software Engineer

Jun 2023 – Jun 2024 | Pune, India (via Infogen Labs, integrated into Ciklum)

- Diagnosed and resolved critical Stripe webhook failures, reducing payment processing error rate by 50% and eliminating double-billing incidents affecting 20% of active subscription users — restoring revenue integrity
- Optimised CMS performance through database query restructuring and strategic caching implementation, reducing load times from 1.5-2 minutes to under 15 seconds (70% improvement)
- Integrated multi-upload functionality into the admin panel, streamlining bulk operations and reducing manual admin effort by 30%
- Engineered Facebook Graph API integration for automated post scheduling with real-time analytics tracking (likes, comments, shares, reach) across 50+ posts, achieving 65% improvement in organic post consistency
- Built and maintained RESTful APIs and front-end components using PHP (Laravel, Yii), Vue.js, and MySQL across a subscription-based SaaS platform

Gadre Infotech Pvt. Ltd.

Jun 2022 – Jul 2022

Web Developer Intern

Ratnagiri, India

- Designed and built a fully responsive multi-page school website from scratch using HTML5, CSS3, JavaScript, and Bootstrap - delivered complete within a 2-month internship timeline

TECHNICAL SKILLS

Languages

JavaScript • TypeScript • PHP • Python

Frontend

React.js • Vue.js • HTML5 • CSS3 • Bootstrap

Backend

Node.js • Laravel • Yii • REST APIs • GraphQL • Facebook Graph API

Database

MySQL • PostgreSQL

Cloud & DevOps

AWS • Docker • CI/CD • Git • GitHub

Payments

Stripe API • Webhook Architecture • Subscription Billing

Dev Tools

Jira • Postman • vTiger CRM • PHPRunner • Agile / Scrum

KEY PROJECTS

Munetrix - Full-Stack Developer

PHP · Laravel · Vue.js · MySQL · FusionCharts · Tableau

- Built custom reporting modules integrating FusionCharts and Tableau for dynamic data visualisation
- Led Laravel framework upgrade from v9 to v11 and PHP from 7.1 to 8.3 — improving security, performance, and long-term maintainability
- Refactored backend query architecture, reducing reporting load time by 45%

Screen Insider - Full-Stack Developer

PHP · JavaScript · MySQL · AWS · Facebook Graph API

- Reduced CMS load time by 70% through database query optimisation and system architecture improvements
- Created dynamic content pages and visual metrics dashboards with click/download tracking and audience analytics
- Automated organic Facebook posting pipeline with real-time engagement tracking (likes, comments, shares, reach)

Hatch Insight - Backend Engineer

PHP · Yii 2 · Node.js · MySQL · Third-party APIs

- Enhanced backend architecture and integrated third-party learning tools to support high-availability e-learning modules
- Optimised database queries and API response handling to support concurrent user sessions, improving platform stability during peak load

Personal Projects

github.com/Misrilal-Sah

- Jewellery E-commerce — full luxury e-commerce platform with secure checkout, product galleries, and order management (ReactJS · Node.js) | [View Project](#)
- MirraSync — AI productivity tool to run multiple LLMs side by side in a single interface (JavaScript · Node.js) | [View Project](#)
- AI Query Master — AI-powered database assistant that analyzes, optimizes, and generates queries using RAG, reasoning, and agentic workflows. (ReactJS · Python) | [View Project](#)
- 4 published Chrome Extensions: Design-Inspector-Pro, GlobeSync, Screenshot-Master, GrammarGenius-Pro
- 4 published VS Code Extensions: Insert Utilities, Path-Master, Trailing Pro, Speech-to-Text for Cursor AI

CERTIFICATIONS

- Stripe Certified Professional Developer Stripe | Apr 2025 – Apr 2027 | [Verify](#)
- JavaScript (Intermediate) HackerRank | Mar 2026 | [Verify](#)
- AI Academy Level 3 Ciklum | Jan 2026 | [Verify](#)
- NodeJS — The Complete Guide | Ultimate AWS Certified Cloud Practitioner Udemy

EDUCATION

Bachelor of Engineering — Computer Science

Aug 2019 – May 2023

- Rajendra Mane College of Engineering & Technology, University of Mumbai

CGPA: 8.7 / 10
